(IST). The Company is providing the facility to vote at the Meeting by electronic means, i.e., remote e-voting and e-voting at the Meeting.

III. Need and rationale of the Scheme, benefits of the Scheme as perceived by the Board of Directors of the Companies, synergies of business of the Companies involved in the Scheme, impact of the Scheme on the shareholders and cost benefit analysis of the Scheme.

1. The Demerged Company was established in the year 2007, with a focus on providing business services, leveraging its extensive domain knowledge and future-ready digital platforms to drive client productivity through outsourced solutions.
2. Over the past 17 (seventeen) years, the Demerged Company has been a pioneering leader and has expanded its geographic presence and scale. The Demerged Company currently has offices across India, Southeast Asia, North America and Middle East.
3. The Demerged Company's business portfolio is spread across various business services platforms including Work Force Management, Global Technology Solutions, Operating Assets Management and Product-Led Business. These businesses are carried out directly by the Demerged Company as well as through its subsidiaries or associate companies.
4. The nature of technology, operations, customer landscape, risk, competition and operations involved in each of these businesses is distinct, and consequently, each business is capable of addressing independent business opportunities, deploying different technologies, and attracting different sets of talent, customers, investors, strategic partners, lenders and stakeholders.
5. In order to strengthen the value proposition for customers, unlock significant long-term valuation and upside value creation for the shareholders (through focused management, clearer choices of capital allocation, etc.) and to provide investors, strategic partners, lenders and stakeholders the flexibility to participate in some or all of these distinct businesses, the Demerged Company proposes to re-organise and segregate its business portfolio in the manner contemplated under this Scheme, as detailed below:
 - (i) the transfer of the Demerged Undertaking 1 (i.e., the undertaking engaged in Transferred Business 1) to Resulting Company 1; and
 - (ii) the transfer of the Demerged Undertaking 2 (i.e., the undertaking engaged in Transferred Business 2) to Resulting Company 2.
6. The Scheme will ensure long-term value creation and is in the best interest of the Companies and their respective shareholders, employees, creditors and other stakeholders.
7. The proposed restructuring pursuant to this Scheme, is expected, *inter alia*, to result in the following benefits:
 - (i) simplification of organisational and operating structure to enable sharper management focus on individual platforms and business requirements, thereby allowing management of each of the business undertakings to pursue independent growth strategies. The proposed restructuring will result in separation of the current diversified businesses under the Demerged Company to each of the Resulting Companies focusing on similar type of businesses and independent management of each of the businesses will be able to ensure the required depth and focus on each of the businesses and the adoption of strategies necessary for the growth of respective businesses;
 - (ii) facilitating the pursuit of scale and independent growth plans (organically and inorganically) of all segments with more focused management, flexibility and liquidity for the shareholders, following the listing of equity shares of the Resulting Companies, pursuant to the Scheme;
 - (iii) insulating and de-risking the businesses from one another;
 - (iv) unlocking value for the over-all business portfolio through better price discovery of individual platforms. Consequently, the proposed restructuring is expected to open-up windows to unlock value through potential divestments and acquisitions to achieve the scale of business in respective subsidiaries as well;
 - (v) reinforcing strong stewardship through more value-focused capital allocation strategies and ensuring that existing and potential investors are able to realise full returns on their investments;

- (vi) facilitating creation of value for the shareholders through a segregated corporate structure by realigning the business portfolio of the Companies to attract specific investors for each of the businesses, and consequently, encouraging stronger capital market outcomes, and creating the ability to achieve valuation based on respective risk returns profile and cash flows;
- (vii) facilitating diversification by allowing investors to invest separately in different businesses with different investment characteristics thereby enabling them to select investments that best suit their investment strategies and risk profiles;
- (viii) creating an even stronger internal foundation for performance management and accountable ownership aligned with long-term shareholder value creation; and
- (ix) providing scope for mitigation of overlapping services, and enhancing the focus on independent business growth strategies and expansion for each of the business undertakings.

Cost benefit analysis of the Scheme

Although the Scheme would lead to incurring some costs by each of the Companies towards its implementation, the benefits of the Scheme over a longer period would far outweigh such costs for the stakeholders of the Companies in terms of improved competitiveness, operational efficiency and other benefits as specified under need & rationale of the Scheme. It will be beneficial for the Demerged Company and Resulting Companies.
